## Statement of Commitment to Child Safety

Fitra Community School is a child safe organisation which welcomes all children, young people and their families.

We are committed to providing environments where our students are safe and feel safe, where their participation is valued, their views respected, and their voices are heard about decisions that affect their lives. Our child safe policies, strategies and practices are inclusive of the needs of all children and students.

We have no tolerance for child abuse and take proactive steps to identify and manage any risks of harm to students in our school environments.

We promote positive relationships between students and adults and between students and their peers. These relationships are based on trust and respect.

We take proactive steps to identify and manage any risk of harm to students in our school environment. When child safety concerns are raised or identified, we treat these seriously and respond promptly and thoroughly.

Particular attention is given to the child safety needs of students who present with characteristics that make them more at risk or vulnerable, whether that be their race, place of origin, family circumstances, identity or ability. Inappropriate or harmful behaviour targeting students based on such characteristics, are not tolerated at our school, and any instances identified will be addressed in accordance with the School's policies and procedures, including the bullying and harassment policy.

Child safety is a shared responsibility. Every person involved in our school has an important role in

promoting child safety and wellbeing and promptly raising any issues or concerns about a child's safety.

We are committed to regularly reviewing our child safe practices, and seeking input from our students, families, staff, and volunteers to inform our ongoing strategies.

## Roles and Responsibilities

## **Specific staff child safety responsibilities**

Our Principal is the first point of contact for child safety concerns or queries and for coordinating responses to child safety incidents.

The Principal is responsible for monitoring the school's compliance with the Child Safety Policy. Anyone in our school community should approach the Principal if they have any concerns about the school's compliance with the Child Safety Policy.

The principal is responsible for informing the school community about this policy, and making it publicly available.

Other specific roles and responsibilities are named in other child safety policies and procedures, including the Child Safety Code of Conduct, Child Safety Responding and Reporting Obligations (including Mandatory Reporting) Policy and Procedures, and Child Safety Risk Register.

The School Board monitors the Child Safety Risk Register.

## **Child Safety Code of Conduct (set out in Appendix 1)**

Our Child Safety Code of Conduct sets the boundaries and expectations for appropriate behaviours between adults and students. It also clarifies behaviours that are not acceptable in our physical and online environments.

We ensure that students also know what is acceptable and what is not acceptable so that they can be clear and confident about what to expect from adults in the school.

The Child Safety Code of Conduct also includes processes to report inappropriate behaviour.

## Managing Risks to Child Safety and Wellbeing

At our school we identify, assess and manage risks to child safety and wellbeing in our physical and online school environments. These risks are managed through our child safety and wellbeing policies, procedures and practices, and in our activity specific risk registers, such as those we develop for off-site overnight camps, adventure activities and facilities and services we contract through third party providers for student use.

Our Child Safety Risk Register is used to record any identified risks related to child abuse alongside actions in place to manage those risks. The School Board will monitor and evaluate the effectiveness of the actions in the Child Safety Risk Register at least annually.

## Managing Risks to Child Safety and Wellbeing

At Fitra Community School, we are committed to establishing an inclusive and culturally safe school where the strengths of Aboriginal culture, values and practices are respected.

We think about how every student can have a positive experience in a safe environment. For Aboriginal students, we recognise the link between Aboriginal culture, identity and safety and actively create opportunities for Aboriginal students and the Aboriginal community to have a voice and presence in our school planning, policies, and activities.

We have developed the following strategies to promote cultural safety in our school community:

- Make Aboriginal voice part of decision making in matters that affect Aboriginal students.
- Celebrate the local Aboriginal community through naming sections of the school premises after the local Aboriginal community.
- Build school wide knowledge of Aboriginal histories, cultures, perspectives, values, skills and attitudes.
- Acknowledge and draw on the existing knowledge of Aboriginal students and their families.
- Having Aboriginal books in the School library.
- Ask for feedback from Aboriginal students and their families about what the school does well, and what can be improved.
- Address racism from students, staff, volunteers or visitors directly. Make sure racist speech or actions are always dealt with, and the culture of the school works to prevent incidents from occurring.
- Train staff and volunteers to understand the importance of Aboriginal culture to the wellbeing and safety of Aboriginal students.

## Student Empowerment

To support child safety and wellbeing at Fitra Community School, we work to create an inclusive and supportive environment that encourages students and families to contribute to our child safety

approach and understand their rights and their responsibilities.

Respectful relationships between students are reinforced and we encourage strong friendships and peer support in the school to ensure a sense of belonging through:

- Discussing resilience, rights and respectful relationships as part of Morning Meetings
- Application of the School's Behaviour Management Policy
- Acting in accordance with the School's Respectful Relationships Standard Operating Procedure.

We inform students of their rights through our whole school approach to Respectful Relationships as noted above and give them the skills and confidence to recognise unsafe situations with adults or other students and to speak up and act on concerns relating to themselves or their peers. We ensure our students know who to talk to if they are worried or feeling unsafe and we encourage them to share concerns with a trusted adult at any time. Students and families can also access information on how to report concerns in the School's Managing Complaints or Grievances Policy.

When the school is gathering information in relation to a complaint about alleged misconduct or abuse of a child, we will listen to the complainant's account and take them seriously, check our understanding of the complaint, support the student and keep them (and their parents and carers, as appropriate) informed about progress.

## Family Engagement

Our families and the school community have an important role in monitoring and promoting children's safety and wellbeing and helping children to raise any concerns.

To support family engagement, at Fitra Community School we are committed to providing families and community with accessible information about our school's child safe policies and practices and involving them in our approach to child safety and wellbeing.

We will create opportunities for families to have input into the development and review of our child safety policies and practices and encourage them to raise any concerns and ideas for improvement.

We do this by:

- Asking parents and carers about their children, both through formal settings like parent/teacher interviews and during chance meetings at pick-up and drop-off.
- Making all of our child safety policies and procedures available for parents on the School Management Portal.
- Displaying Child Safety posters across the School.
- Communicating child safety policies and procedures via regular email communication with parents and providing opportunities for parents and carers to suggest ideas for improvement

via such communications.

## Diversity & Equity

As a child safe organisation that is grounded in the Islamic tradition, we celebrate the rich diversity of our students, families and community and promote respectful environments that are free from discrimination. Our focus is on wellbeing and growth for all.

We recognise that every child has unique skills, strengths and experiences to draw on.

We pay particular attention to individuals and groups of children and young people in our community with additional and specific needs. This includes tailoring our child safety strategies and supports to the needs of students who present with characteristics that make them more at risk or vulnerable, whether that be their race, place of origin, family circumstances, identity or ability.

Our Student Welfare Policy and Equal Opportunity & Anti-Harassment Policy provides more information about the measures we have in place to support diversity and equity.

We have clear pathways for raising complaints and concerns and responding and this is documented in

the School's Managing Complaints or Grievances Policy.

If there is an incident, disclosure, allegation or suspicion of child abuse, all staff and volunteers (including School Board member) must follow our Child Safety Responding and Reporting Obligations Policy and Procedures. Our policy and procedures address complaints and concerns of child abuse made by or in relation to a child or student, school staff, volunteers, contractors, service providers, visitors or any other person while connected to the school.

As soon as any immediate health and safety concerns are addressed, and relevant school staff have been informed, we will ensure our school follows:

## APPENDIX 2

# Processes for responding to and reporting suspected child abuse

## Purpose

These procedures have been developed to ensure the wellbeing of all students and to protect them from child abuse in accordance with the School's obligation to maintain a child safe environment under Ministerial Order 1359.

## Scope

All members of the School community share a responsibility to ensure the welfare of all students. These procedures extend to all School staff, whether permanent, fixed term or casual employees of the school, whether teaching or non-teaching and including volunteers or contracted service providers working at the school. It also applies to allegations or disclosures of child abuse made by a child.

## Standards

In February 2022, the Victorian Deputy Premier and Minister for Education released the Ministerial Order No 1359 which outlines minimum standards for maintaining "child safe environments" for all organisations with direct and regular contact with children.

These minimum standards form a requirement for registration which requires the school to meet all of the standards of this Ministerial Order. These minimum standards will continue to enhance and promote our culture in which protecting our students from abuse is part of everyday thinking and practice within the school.

## Definitions

For the purpose of ensuring a clear understanding of the relevant parts of the Ministerial Order 1359:

A **Child** means any student enrolled at the school.

**Child connected work** means work authorised by the school and performed by an adult in the School environment where children are present or reasonably expected to be present.

**Child Abuse** includes any act committed against a child involving:

- A sexual offence
- A grooming offence
- The infliction on a child of physical violence, serious emotional or psychological harm or serious neglect.

Child Abuse includes but is not limited to Child Sexual Abuse.

**Child Safety** encompasses matters related to protecting all children from child abuse, managing the risk of child abuse, providing support to a child at risk of child abuse, and responding to incidents or allegations of child abuse.

**Child FIRST:** The Family Information Referral Support Team run by a registered community service in a local area.

**Child Protection Services:** Government Authority which takes responsibility for the protection of children and to whom reports are made.

**DHHS:** Department of Health & Human Services.

**Mandatory Notifier:** In the context of the school is the Principal, a VIT registered teacher, a person holding Permission to Teach from VIT or a Registered Nurse.

**Mandatory Reporting:** Requirement imposed on a Mandatory Notifier to report to government authorities, as required by the Children, Youth and Families Act 2005 (Vic), in the event that the Mandatory Notifier forms a belief on reasonable grounds that a child has suffered, or is likely to suffer significant harm as a result of physical or sexual abuse in circumstances where the parents have not

protected, or are unlikely to protect, the child from that harm.

**Teacher:** a qualified teacher with VIT registration or a person holding Permission to Teach from VIT.

**Registered Nurse:** a person registered under the Health Practitioner Regulation National Law to practice in the nursing and midwifery profession as a nurse.

**School environment** means any physical or virtual place made available or authorised by the school for use by a child during or outside school hours including:

- a campus of the school
- online school environments (including email and intranet systems), and
- other locations provided by the school for a child's use (including, without limitation, locations used for school)
- camps, sporting events, excursions, competitions, and other events).

**School staff** means an individual member of staff working for the school who is:

- directly engaged or employed by the School's governing body
- a volunteer
- contracted service provider (whether or not they are employed through a body corporate or any other person is an intermediary)

## Procedures

The intention of these procedures is to support School staff in ensuring a child safe environment at the School, in particular by providing guidance and procedures for School staff to appropriately respond to allegations or disclosures or concerns that they have of suspected child abuse or regarding the wellbeing of a Child.

These procedures do not displace the obligations of a Mandatory Notifier under relevant legislation. Nor do they displace the obligation placed on any adult under the Crimes Act (Vic) which requires any adult who forms a reasonable belief that a sexual offence has been committed by an adult against a child under 16 years of age to report that information to police (this includes grooming). Further information on these obligations may be found in the following policy documents:

- Mandatory Reporting Policy
- Other Child Safety Reporting Obligations Policy

## What is Child Abuse?

Some examples of Child Abuse are:

- Physical injury which results from abuse or neglect
- Sexual abuse which refers to a situation in which a person uses power or authority over a child to involve the child in sexual activity, and the child's parent or caregiver has not protected the child
- Emotional abuse which involves a parent or caregiver repeatedly rejecting the child or using threats to frighten the child
- Neglect which occurs when a parent or caregiver fails to provide the child with the basic necessities of life; food, clothing, shelter, medical attention or supervision; to the extent that the child's health and development is, or is likely to be, significantly harmed.

## Reporting Suspected Child Abuse

Without in any way displacing the legal obligations imposed on the Principal by the Child Wellbeing and Safety Act 2005, Mandatory Notifiers by the Children, Youth and Families Act 2005 (Vic) and all adults by the Crimes Act (Vic), School staff should refer any allegations, disclosures or concerns in relation to child safety involving a child to the Principal. Concerns should be communicated promptly. Actions that may flow from this will depend on the precise circumstances. In all instances, it is expected that any reporting of a matter to external authorities will be undertaken on behalf of the school by the Principal, unless specifically delegated by the Principal to another member of staff.

The Principal will (unless specifically delegated to an alternate member of staff) respond to the the allegation, disclosure or concern by:

- Reporting the matter to the Police: If it is believed that the child's safety is in immediate risk the circumstance will be immediately reported to the Police.
- Contacting Child Protective Services and/or to Child FIRST. This would apply when the person reporting has significant concern for a child's wellbeing, but does not believe that the child needs immediate protection.
- Contacting the Parent/Guardian of the child.
- Enacting the school's Critical Incident Plan (e.g. if an allegation is made against a

- current member of staff). This will be done by the Principal, if appropriate.
- Taking steps to remove the source of concern (e.g. standing down a member of School Staff or student, restricting access to the school of a volunteer or contractor), consistent with appropriate legal advice.
  - Taking all necessary steps to ensure that the child or children who make or is affected by an allegation of child abuse, has a safe School environment and is given appropriate support by the school. Ensuring that any response by the school will also take into account the needs of children from culturally and linguistically diverse backgrounds, Aboriginal and Torres Strait Islander children, children with disabilities and children who are vulnerable. Refer to the Dealing with Diversity section below.
  - An investigation – to be carried out by the Principal or his/her nominee, subject to the requirements of any government authority. The school will act appropriately on the findings of any investigation. Where child abuse has resulted from the actions of a member of School Staff, this may include disciplinary action against that person.
  - A review – the school will conduct a review of its actions in relation to any instance of child abuse and will incorporate any modifications / learnings into these procedures, as may be deemed necessary.

In the event that the Principal is unable to respond to the suspected child abuse as noted above, and is unable to delegate the responsibility for responding to the suspected child abuse to an alternative member of staff, the person making or receiving the allegation or disclosure should contact the school Board, who will then assign an appropriate person to respond to the suspected child abuse in accordance with the above.

In all cases, the school will also act in accordance with its legal obligations which may involve reporting the matter to appropriate authorities including:

- Victoria Police
- Department of Health & Human Services
- Department of Education and Early Childhood Development.

In certain circumstances, this may result in the matter (including investigation) being taken over by the relevant authority.

The possible outcomes will depend on the nature of the complaint and allegations. Where an investigation has found that a complaint of child abuse is substantiated, appropriate action will be taken by the school against the person found to be the perpetrator. For employees, this may include a range of sanctions including termination of employment. For students, this may include expulsion from

the school.

## Dealing with Diversity

The school is aware that some people from culturally and/or linguistically diverse backgrounds may face barriers in reporting allegations of abuse. For example, people from some cultures may experience anxiety when talking with police, and communicating in English may be a barrier for some. We understand the need to be sensitive to these issues and meet people's needs where possible, such as having an interpreter present (who could be a friend or family member).

If an allegation of abuse involves an Aboriginal or Torres Strait Islander child, we will ensure a culturally appropriate response. A way to help ensure this could include engaging with parents/guardians of Aboriginal children, local Aboriginal communities or an Aboriginal community controlled organisations to review policies and procedures.

Some children with a disability may experience barriers disclosing an incident. For example, children with hearing or cognitive impairments may need support to help them explain the incident, including through sign language interpreters. Advice on communicating with people with a disability can be found on the Department of Health and Human Services website:

## Documentation

It is important that all concerns and observations are documented in a confidential file and that notes and records are accurate and contemporaneous. It is also important to record all actions taken. This process of documentation may occur over a period of time. Documentation and records must be stored securely in the staff office to protect the privacy of all parties involved.

The Principal (or their delegate) is responsible for ensuring that appropriate records are made and kept confidential. However, it is the expectation that all School staff members involved in an incident make their own contemporaneous records provide them for filing.

Information about child abuse must remain confidential and the School staff member making the report must not discuss this information with anyone other than the Principal (or their delegate), Police,

Child Protection Services and/or Child First representative.

It is noted that a Mandatory Notifier acting in good faith under the Children, Youth and Families Act 2005 or an adult acting in good faith under Crimes Act (Vic) has certain protections as to privilege and confidentiality.
